

The newsletter has returned!!

After a mild start to winter, we are now getting used to seeing rain and cold temperatures. Not only is this causing havoc with the scheduling of Trophy Events, but the course is also very soft. I'm sure you will agree that Eden is continuing to maintain the course to a high standard but it is not his job to repair divots.

Please, please replace the divots you make and any others you may see around the course. This also includes areas of rough. If you take a divot from a tee, please fill it with sand from the boxes provided next to the tees.

Not what we like to find!

=====

We have recently secured funding from a charitable trust to do some drainage work on the No.1 fairway. This will commence when the ground dries out enough to enable us to get the machinery on to the course.

=====

Thanks to Martin Robson, the potholes in the driveway have been repaired. The main cause of these is people driving too fast into the carpark. We ask that you slow down and if you see anybody coming through too fast – feel free to give them a telling off.

Martin has also built a house to put our air compressor in so we can move it from the kitchen. We are looking at installing a concrete pad to tidy up the washdown area and are in the process of applying for funding to do this

=====

The Club Champs are coming...Entry sheets for the Men are in the Men's Locker Room. Don't think you have no chance of winning so there's no point in entering – If you don't enter you certainly won't win! For the Men, the stroke play rounds are on 16 & 23 of August. The top 8 (or maybe 16 depending on numbers) in each division will contest the match play rounds. Women's stroke play is on 3 August, Match play finals for both Men & Women are on 4 October. These dates are 'set in stone' but there is some flexibility for the preliminary match play rounds. To enter, write your name on the entry forms – don't get someone else to do it – if your name is not down it is your fault, no one else's. Men's entry closes on 10 August.

=====

How many of you have friends that belong to other clubs or no club at all? Why not invite them to a game at our place? Simply by doing this you can help spread the word about how wonderful our course is and also boost our green fee income in the process.

=====

Know your course:

Q: Where is this small waterfall (or cascade)?
